Testimonials

"Professional in HSE, SIMOPS, all Well Control Equipment. It is an excellent value to have Eric as part of the team to help and advise us on all above including technical audits and preparation of Emergency Response Procedures."

Sr. Drilling Superintendent, Major E&P

"Held in the highest regard by the upper management of the wells division of our client hence his recommendation. He has been re-assigned consistently to a number of global operations, each time excelling in his role capacity."

Major E&P Global Accounts Manager

"Did a great job at ensuring the safety of our operations and the conformity of our drilling units to Company and International Standards. Eric was also involved in the site emergency response team following a shallow gas blow-out. His skills and attitude were highly appreciated."

Drilling & Completions Manager - Major E&P

"I recommend Eric Roth (Rig Integrity) for HSE and Quality/Method Engineering in drilling / completion / frac activities. He provided great work on our operations in Indonesia and Argentina."

Head of Drilling & Wells, Major E&P

"Very detailed, organized and disciplined. His constant attention to detail and ability to compose systems for trace-ability and compliance, on the ever changing regulations, in our industry, is remarkable. Particularly with BOP and Well control systems."
